

INSURANCE

PATH Intl. Standard A2 requires that PATH Intl. Centers have General Liability Insurance Coverage in place. PATH Intl. Centers rely on a variety of different insurance companies to meet this standard, as well as addressing other risk concerns managed in part with insurance coverage. Some of these companies are listed below.

PATH Intl. has a long standing relationship with Markel Insurance that offers a discount to PATH Intl. Centers abiding by PATH Intl. standards. However, no one insurance carrier can address the risk management needs of the diversity of PATH Intl. Centers, nor cover all risk management needs centers may have. PATH Intl. suggests that centers develop a comprehensive risk management plan and adapt and refine it regularly as operations grow and change.
