Normal Workday: 1-3 Classes- WR total between 1-15 pts.			
Heavy Workday: 3-4 classes with a max 4 classes- WR total between 15-20 pts.			
*Heavy workdays must not be consecutive.			

- Littlefoot** **Program use:** (3xday WR 15) W/T/C Lunging, EFL, TR, Leads well but can get pushy if in his face. Do not let him chew on lead ropes, reins or other equipment. Works better after warmup.
Training: Work on responsiveness to rider aids. Work to maintain fitness and topline strength. Needs to improve balance and self carriage in trot and canter. Work to maintain engagement while walking. Work on canter depart esp left lead. Should work on bending and lateral work/
- Sandy** **Program use:** (3xday WR 15) W/T/C Lunging, TR, EFL; Leads well but should have confident leader; can be girthy give her head room; slowdown coming into the mounting block so she doesn't rush through. Watch horse spacing, needs extra room between her and other horses. Can be a lot of work to canter, not a beginner canter horse.
Training: Work on leg aids including lateral work. Needs work on bending and balancing herself. Work on transitions including trot/canter. Work over poles to maintain topline.
- Chesney** **Program Use:** (2xday WR 10) W/T Lunging TR, EFL. Careful not to give conflicting commands. Listens well to rider. Try to use working walk as much as possible.
Training: Work on maintaining gait, needs to improve straightness. Work on balance, keep in the same gait till it is consistent and balanced, may take several laps in the arena at trot or canter. Difficult to get the correct lead the first time.
- Misty Blue** **Program Use:** (2xday WR 10) W/T/C TR, EFL, Lunging. Great for both lead line and independent riders, leads well, very responsive to aids. Weak topline try to keep engaged during class - working walk - half halts, watch for false collection. Can be girthy, give her room during tacking and tightening. Good beginning canter horse.
Training: Work on developing topline. Be careful of false collection, she has learned to move without being engaged. Work on strengthening hind quarters and balance on circles. Work on stretching down and forward during free walk.
- Darla** **Program use:** (3xday WR 15) W/T TR, EFL, Lunging. Does not care for sidewalkers. Try to keep energy around her low. Very sensitive to peoples' energy and mood. Do not over tighten girth.

Week 8

Monday March 14, 2016

Time/Instructor	Rider	Horse	Equipment	WR	Notes
8:30 - Schooling	Linda	Littlefoot			
10:00 - Cowgirls		Minis			
10:15- 11:45 Rachel/Cody	Westfield Intermediate School	BigBoy			
		Smokey
