What is Interactive Vaulting?  
Interactive Vaulting is an activity in which the participants perform movements on and around the horse. These movements can be very simple such as sitting without holding onto the surcingle or a more elaborate vaulting position such as kneeling or standing on the horse. It all depends on the individual needs of the vaulter.  

Is Interactive Vaulting Right for your Center?  
Can you meet the PATH Intl. Standards for Interactive Vaulting  
• Do you have appropriate equines?  
• Do you have the personnel?  
• Do you have appropriate participants?  
• Do you have the equipment?  
• Do you have the time/$$$?  

Some Things to Consider  
• Do you have appropriate equipment?  
• Do you have the personnel?  
• Do you have appropriate participants?  
• Do you have the equipment?  
• Do you have the time/$$$?  

Can you meet the PATH Intl. Standards for Interactive Vaulting  
• VA5 Mandatory  
• Does the center have a written policy that only a maximum of 6 consecutive vaulting sessions (not including one-off vaulting) per participant are allowed each week?  
• F17  
• Does the interactive vaulting area have a radius of at least 30 feet allowing a lunging circle of 60 feet, and is there a minimum ceiling clearance of 16 feet?  
• F42  
• Is the vaulting barrel as follows:  
  1. Designed and constructed of materials of a strength and size to accommodate the participants, personnel, equipment, and activities for which it is used?  
  2. Sufficiently padded, free of sharp and protruding objects and includes built-in or attached handles?  
  3. Placed in a location with sufficient clearance to mount and dismount safely?  
  4. Placed in an area with even, soft and resilient footing?

Vaulting Positions

An Interactive Vaulting Lesson:

Interaction Vaulting Safety Rules:
* Only the instructor handles the whip and the lunging line.
* Only enter the lunging circle when invited by the instructor.
* Do not use your hands or feet, when and if the rider is in the half circle behind the horse.
* When you enter in the middle line, the instructor stands behind the wing.
* Approach the horse at the shoulder.
* Work as a team.

Interactive Vaulting Horses

Interactive Vaulting Horses must meet specific requirements and undergo specialized training. Not all therapeutic riding horses can be used for interactive vaulting.

What Kind of Horse do you need?
- Does not need to be fancy
- Sound at all three gaits on a circle
- Nonreactive back
- Suitable temperament - not a “dead head”
- Appropriate height, width and gait for vaulters
- Consider Previous Training

The Interactive Vaulting Horse must be able to:
- Lunge at the walk, trot and canter
- Respond immediately to the lunger
- Accept position changes of the vaulter on their back
- Be approached from all sides at all gaits
Interactive Vaulting Participants

Not all participants are appropriate for Interactive Vaulting:

Cognitive Requirements
• Must be able and willing to follow simple directions
• Demonstrate healthy self-preservation skills
• Must be able to demonstrate self-restraint in case of frustration

Physical Requirements
• Walk independently
• Must have adequate balance
• Ability to move sideward and backward
• Must be able to stand and walk without falling
• Good head and neck control
• Shoulder stability and arm strength
• Must be able to hear from some distance
• Must be capable of dismounting immediately

Social Requirements
• Function in a group setting
• Must be able and willing to promote patient
• Demonstrate safe behavior around fellow vaulters and horse
